PROFESSIONAL SUMMARY

B.Tech Information Technology student (graduating May 2026) with hands-on experience in Python, Flask, REST API development, MySQL, JWT authentication, Git, and cloud deployment platforms (Render, Railway). Completed a Web Development internship building and testing backend applications with database integration and API authentication. Seeking an entry-level Python Developer, Backend Developer, or Software Developer role to apply REST API design, database integration, and Agile collaboration skills.

TECHNICAL SKILLS

- **Languages:** Python, C, C++
- **Backend Development:** Flask, REST API Development, JWT Authentication, CRUD Operations, API Design
- **Databases:** MySQL, SQL, Database Integration, Schema Design
- **Web Technologies:** HTML5, CSS3, JavaScript (Basic)
- **Cloud & Deployment:** Render, Railway, Cloud Computing Fundamentals
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, API Testing
- **Practices & Concepts:** Object-Oriented Programming (OOP), Agile Collaboration, CRUD Operations, Version Control
- **Operating Systems:** Linux (Basic)

WORK EXPERIENCE

Web Development Intern — Space Zee Technology Pvt. Ltd.

Jul 2025 – Aug 2025

- Developed backend applications using Python and Flask, building RESTful APIs with full CRUD operations across 4 core endpoints (GET, POST, PUT, DELETE).
- Integrated MySQL for database operations and tested REST APIs using Postman, validating request/response accuracy across all CRUD endpoints.
- Used Git and GitHub for version control while collaborating with mentors in an Agile environment throughout the 6-week internship.
- Assisted in developing and testing backend modules using Python and Flask, supporting end-to-end feature delivery from development to testing.
- Internship completion certificate issued by Space Zee Technologies Pvt. Ltd. (Certificate ID: [SZ_CIN_2025_0072](#)).

PROJECTS

Student Management REST API | (Python, Flask, MySQL, REST API)

Jul 2026

- Built RESTful APIs to manage student records with full CRUD operations (GET, POST, PUT, DELETE) using Flask and MySQL; validated all endpoints via Postman for reliability and correctness.

GitHub: github.com/jafranhamed383-bot/student-management-rest-api

JWT Authentication API | (Python, Flask, JWT)

Jul 2026

- Built secure authentication APIs using JSON Web Tokens (JWT), implementing login authentication and protected routes; tested workflows via Postman.

GitHub: github.com/jafranhamed383-bot/JWT-Authentication-API

Weather App | (HTML, CSS, JavaScript, OpenWeatherMap API)

Jul 2026

- Built a responsive weather application with real-time weather updates and forecast using the OpenWeatherMap API.
- Implemented location search, dark mode, and a fully responsive UI; deployed live on GitHub Pages.

GitHub: github.com/jafranhamed383-bot/WEATHER-APP

File Storage System | (Python, File Handling)

Jul 2026

- Built a Python file management system supporting upload, retrieval, and organization, applying clean, maintainable code structure and modular design.

GitHub: github.com/jafranhamed383-bot/file-storage-system

EDUCATION

Bachelor of Technology – Information Technology

Expected May 2026

M.I.E.T Engineering College, Tiruchirappalli | CGPA: 7.66 / 10.00

LANGUAGES & SOFT SKILLS

- **Languages:** Tamil (Native), English (Professional Working Proficiency)
- **Soft Skills:** Problem Solving, Team Collaboration, Communication, Adaptability, Quick Learner, Time Management
